ESSMEE Newsletter

October Extra !

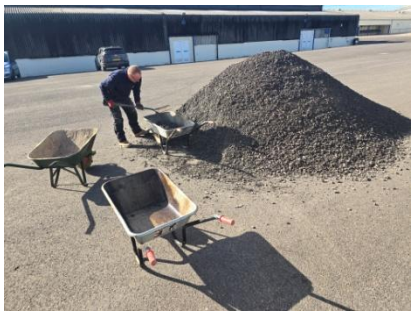

Editors : Michael & Anne Malleson

Station floor renewal

As you may by now know, a huge amount of work has gone into renewing the Arrivals Platform. We have been sent a number of photos from members of the crew who have been slaving away to get the job done, ready for the Santa Special evenings. The slaving was made all the more arduous by the theft of two diggers that would have lightened the load, so bravo the shovel gang who stepped in to fill that breach.

We have decided to send out the photos as an extra Newsletter to ensure that the November Issue has space for the usual contributions, including, we hope, progress reports on members projects, Santa Specials, etc. Photos and a caption will be enough if you don't want to write a more detailed report. (usual emails please)

The nicked digger **Heroes !!**

The ready mix is ready.

Barrow load after load

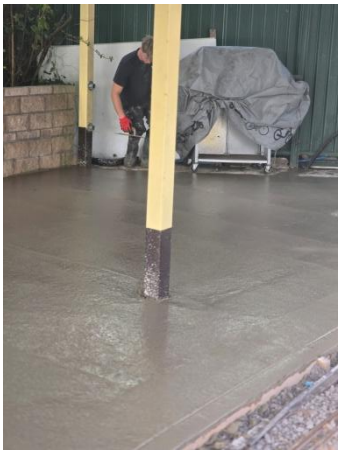

The new platform appears

Until, Hey Presto **IT's Done, Woopee !!!!**

Congratulations to the sturdy team who pulled off this wonder of civil engineering, and we hope all our passengers will enjoy queuing on it however long they may have to wait for their ride.

Well Done. (and NO walking on it until next Wednesday, Chairman's orders).

Mike & Anne . Eds.
